

We are very proud of our children's writing

Year 4 descriptive writing inspired by drama

It was dark and gloomy. The garden looked like there were secrets tucked away in a chest. The garden sent shivers to anyone who ever dared to visit. The golden gargoyls reflected the shining swords they were holding. The vines were tangled, they were like an impossible puzzle to solve. In the distance you can hear little girls screaming one by one. The bridge was like a ruin. You could feel like someone or something was watching.

Reception self-initiated independent writing

Year 5 Balanced Arguments

Should children wear school uniforms?

When children go to ^{their} school, they wear school uniforms. Many ^{people} say that it promotes team spirit and it stops bullying. Despite this, a significant minority disagree about wearing ^{wearing} uniforms. There are arguments for and against, which means both sides ^{will} be explored in more detail. ✓

Several pupils agree that school uniforms are not expensive but cheap and affordable for all parents. Moreover, uniforms look smart on children and show that we are ^{big} a team, so it ^{can} stop the bullies from bullying other pupils. Furthermore, it shows which school you go to and it makes dressing into the uniform very easy. Our school uniforms are fair for all, pupils and parents. ✓

On the other hand, a few pupils say that they disagree with school uniforms, it's because some ^{parents} can't afford ^{school} uniforms for their children. If you take your jumper and someone else ^{loses} it, that person might take your jumper. ✓

thinking it's their ^{everyone's} ~~top~~ can express your style and ~~showing~~ ^{everyone's} are a individual. School uniform could be uncomfortable ^{and it's} ~~and it's~~ hard to get dressed late, ⁱⁿ the morning.

In addition to this, if you like to show your own style to others, uniform stops you from doing all of that. Every child is a individual but not everyone can see that since children wear ~~the~~ same uniform, school uniform could be uncomfortable because of the material it is made out of. For some schools the uniform they need to wear is too expensive for them to buy ^{they} so it better to wear your own clothes instead of buying very expensive school uniform.

Looking at this from both sides, there are lots of reasonable reasons ^{about} ~~about~~ agreeing or disagreeing on school ^{uniform}. For example, school uniform looks smart but is quite expensive. What is your opinion?
