

Where does the name Ordnance Survey come from?

1833

a geographical survey (mapping) of Great Britain started

led by expert gunners who were trained in measuring distances

ordnance

cannon or great gun

survey

look upon or notice

This map shows the regions of the UK

This is NOT an OS map

This is a **small-scale** Ordnance Survey map

small-scale OS map

places and spaces look **smaller**

wider view of the area
cities, towns, motorways, mountains and hills

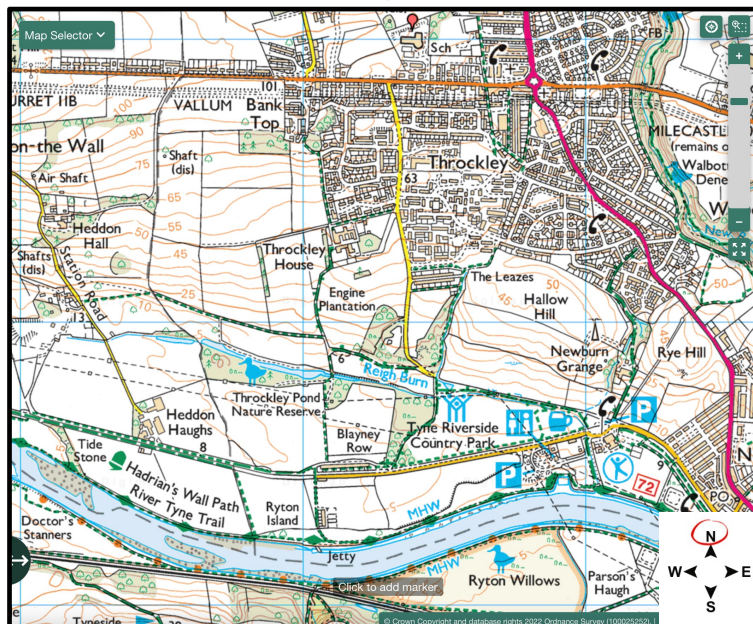

When you look at an OS map, **North** always points to the top of the page

This is a **large-scale** Ordnance Survey map

large-scale OS map

nearer buildings roads rivers historical sites
everything looks **larger**

Map key

unlocks the map
symbols help you read the map

- Sch = school
- P** = parking
- = toilets
- = leisure centre
